JUG END RESERVATION AND WILDLIFE MANAGEMENT AREA  
(Egremont)

Size: 1233.8 acres. Elevations range from 790 to 2015 feet.

Access: Parking allowed only at lot along Jug End Road near Fenton Brook.  
Hiking trails originate from the parking lot.

Vegetation: Mostly mature oak and northern hardwood forests with white pine and hemlock stands found along Fenton Brook. Dense mountain laurel covers the slopes. Open fields comprise 100± acres.

Water: Fenton Brook flows through the area.

Wildlife: Deer, turkeys, ruffed grouse, cottontail rabbits and gray squirrels may be found on the area. Small native brook trout inhabit Fenton Brook. Black vultures have been spotted soaring over the area in recent years.

Special  
Regulations:
